**DETAILED ACTION*****Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5476087 issued to Kunimoto.

## 3. With respect to claim 1, Kunimoto discloses a toy gun comprising:

- a. a frame 10
  - i. barrel 02
  - ii. loading chamber 4a
  - iii. trigger 01;
- b. a movable member 51
  - iv. pressure receiving portion 51A
- c. driving mechanism 05
- d. gas supply controller 35, 36, 37, 40
- e. a gas passage forming member 54
  - v. 1<sup>st</sup> gas passage 21
  - vi. 2<sup>nd</sup> gas passage 51B
- f. movable valve 27
  - vii. valve operation col. 9, l. 62 to col. 10, l. 46.

4. With respect to claim 2, the applicant recites, "objects *to be held* in the magazine are paint containing bullets." Claimed elements that are "to be held" are not positively recited and, therefore, do not recite limiting structural features.

5. With respect to claim 3, the device as disclosed by Kunimoto inherently performs the claimed functions.

## 6. With respect to claims 5 and 6, Kunimoto discloses:

- g. a gas/accumulation chamber 33
- h. control valve 35.

Art Unit: 3641

7. Claims 1-3, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5477843 issued to Kunimoto. The '843 has the same or similar relevant structure similar to that of the '087 patent as shown below.

### ***Response to Arguments***

8. Applicant's arguments filed 01/03/2007 have been fully considered but they are not persuasive. Applicant argues that the prior art does not disclose a toy gun having "a means corresponding to the drive mechanism." However, the applicant has claimed a "drive mechanism" without the use of "means for" language.

***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
